

# There are many faces of erectile dysfunction

You don't have to be one of them.

Erectile dysfunction (ED) affects more than 30 million men in the U.S. It is especially common in men with **prostate surgery, diabetes, high blood pressure and obesity**. However, it is now possible to treat almost all men with ED! ED undermines a man's sexual confidence—but successful treatment can help restore it! Many ED treatments are covered by most insurance and prescription plans.

Attend a **FREE** Men's Health Patient Seminar presented in partnership with Coloplast and Frederick Taylor MD to educate men and their partners about approved ED treatment options. Light refreshments will be served.

**Thursday October 12th, 2023**

Registration begins at 5:30pm  
Presentation begins at 6:00pm

*Featuring:* Frederick Taylor MD  
Urologist

An educational series, jointly sponsored by Coloplast Corp. and Dr. Taylor.

To reserve your space or for more information about this **FREE** Men's Health Patient Seminar, please call: (866) 534-2696.
